

The integrated Cooking Process Management System for the entire kitchen production process

**+15%** Time for Creative Work

**+20%** Recipe Success

**-25%** Administration

**+15%** Time for Creative Work

Free choice of recipe creation and customised recipe memory.  
Integrated work planning and appliance allocation for individual chefs.  
Simple production planning over several days.

**+20%** Recipe Success

Thanks to the ability to download work steps directly to the appliance, you have absolute security in knowing that the cooking process for a recipe is used in the most precise way possible.  
Automated quality control using cooking process tracking: each cooking process used and each batch produced is recorded separately.

**-25%** Administration

Integrated planning and management instrument for cooking processes and work processes in the kitchen.  
Fast and flexible reaction to unplanned events, such as allocation of work plans with another cook, amount adjustments, etc.  
Energy optimisation and savings thanks to efficient planning of appliance allocation and use.

ELRO CPMS® – Your production control for maximum efficiency and higher quality

Menu plan analysis based on products, amounts, etc.

Selecting the ideal cooking methods

Coordinating and selecting appliance technology

Calculating the appliance capacity required

Optimising surface and energy requirements

Determining the type of installation

Calculating cost savings

Installation and start-up

User support by ELRO kitchen chefs
